

Hello FCC Staff;

Please reconsider to keep the VRS services and signmail as well. It's awesome to have it helps my life alot easier to communicate thru VRS than tdd. VRS is so quicker and easier to express my words not from someone else change my word thru the tdd relay. So please, I encourage you to reconsider to keep the quality servies of VRS. What more could I say about VRS. Have a good day, Stef Cloutier
